

## Notes on how to complete the attached evidence form

### Please read these notes before starting

1. Please complete the form in person, if possible, and in clear print.
2. Please answer every question as fully as you can. You may feel that several questions ask for the same information, but there is a reason for their being asked in this manner.
3. Please draw the route of the claimed way on the attached plan as carefully as possible and initial each end.
4. The details contained in this form may be used in evidence at a public inquiry, and you may be required to support the information you are providing by appearing in person.
5. If you cannot attend because of ill-health, or for other reasons, please state this clearly on the form.
6. **Please note that the evidence you submit on this form is not confidential.** The owner of the land affected by the route you have used may wish to know who claims they have used the route. He/she may wish to put forward the case that use was with direct permission. It could be prejudicial if he/she did not have sufficient information to comment on the nature of use. If this is the case, a copy of your completed form could be sent to him/her. In the first instance, a summary of the witness forms will be sent.
7. It is important that the way follows a linear route, and is not an area over which you have wandered at large.
8. A landowner can successfully refute a claim for a right of way to be recorded if he/she can show that either the way was used with his/her express permission only, or that he/she prevented access to the way, or that he/she has erected notices to counter any suggestion that there has been any intention to dedicate the way as a public right of way.

**Important note**

9. The object of this form is simply to reach the truth of the matter, whatever it may be. Witnesses are therefore asked to answer **all** the questions as **fully** as possible, and not keep back any information, whether for or against the public claim; this is of particular importance if the information is to be of real value. Please fill in the questions in clear handwriting.

Please note that the evidence you submit on this form is not confidential as we are obliged under legislation to allow the person(s) affected by the claim access to study and copy documents which we have taken into account when preparing an Order modifying the Map.

Please complete the form in clear writing

1. Personal details

Full name of witness (Mr/Mrs/Miss/Ms) *Andrew May*

Address *Church Lane, Trowbridge,*  
*BA14 0*

Telephone number *[redacted]* Date of birth *[redacted]*

Occupation *Teacher*

(This question is asked so the council can clarify whether your occupation is connected with the person(s) affected by the claim).

2. Description of the path. Please describe, very fully and clearly with references to features on the ground and so on, for example ponds, fences, gates, roads, houses and the precise route used. If you are able, also use grid references.

In 2006 when I moved in to my house I could walk across the whole width of footpath 8 from hedge to hedge. There was lots of room and I could walk with a group of friends easily. ~~with~~ There was 5 meters of room. There was a metal gate entrance to a field which is still there. Now, there is only room for a single person at a time because the grass you could walk on has been fenced off. You have to wait for other pedestrians to exit it before you can use it. Brambles scratch at you from the field side, and weeds grow a lot from the fence side. It is dangerous with many pot holes and one could easily fall or twist ankles.

3. Please draw the route of the claimed way on the attached plan. Do this as carefully as you can because any change to the Definitive Map may be based exactly on the route you draw. Please initial each end of the path.

**4. Believed status of path (please see definitions below)**

- (a) A footpath may only be used for walking

  - (c) A restricted byway may be used by walkers, horse riders (or leading a horse), cyclists and non mechanically propelled vehicles.
  - (c) A Byway Open to All Traffic is a highway over which there is a legal right to use wheeled vehicles of all kinds, including horse drawn vehicles, but which is, in fact, used by the public mainly for walking or riding horses.

## 7. The route

- (a) Have you always followed the same route?

## Notes on how to complete the attached evidence form

### Please read these notes before starting

1. Please complete the form in person, if possible, and in clear print.
2. Please answer every question as fully as you can. You may feel that several questions ask for the same information, but there is a reason for their being asked in this manner.
3. Please draw the route of the claimed way on the attached plan as carefully as possible and initial each end.
4. The details contained in this form may be used in evidence at a public inquiry, and you may be required to support the information you are providing by appearing in person.
5. If you cannot attend because of ill-health, or for other reasons, please state this clearly on the form.
6. **Please note that the evidence you submit on this form is not confidential.** The owner of the land affected by the route you have used may wish to know who claims they have used the route. He/she may wish to put forward the case that use was with direct permission. It could be prejudicial if he/she did not have sufficient information to comment on the nature of use. If this is the case, a copy of your completed form could be sent to him/her. In the first instance, a summary of the witness forms will be sent.
7. It is important that the way follows a linear route, and is not an area over which you have wandered at large.
8. A landowner can successfully refute a claim for a right of way to be recorded if he/she can show that either the way was used with his/her express permission only, or that he/she prevented access to the way, or that he/she has erected notices to counter any suggestion that there has been any intention to dedicate the way as a public right of way.

**Important note**

9. The object of this form is simply to reach the truth of the matter, whatever it may be. Witnesses are therefore asked to answer **all** the questions as **fully** as possible, and not keep back any information, whether for or against the public claim; this is of particular importance if the information is to be of real value. ## Notes on how to complete the attached evidence form

### Please read these notes before starting

1. Please complete the form in person, if possible, and in clear print.
2. Please answer every question as fully as you can. You may feel that several questions ask for the same information, but there is a reason for their being asked in this manner.
3. Please draw the route of the claimed way on the attached plan as carefully as possible and initial each end.
4. The details contained in this form may be used in evidence at a public inquiry, and you may be required to support the information you are providing by appearing in person.
5. If you cannot attend because of ill-health, or for other reasons, please state this clearly on the form.
6. **Please note that the evidence you submit on this form is not confidential.** The owner of the land affected by the route you have used may wish to know who claims they have used the route. He/she may wish to put forward the case that use was with direct permission. It could be prejudicial if he/she did not have sufficient information to comment on the nature of use. If this is the case, a copy of your completed form could be sent to him/her. In the first instance, a summary of the witness forms will be sent.
7. It is important that the way follows a linear route, and is not an area over which you have wandered at large.
8. A landowner can successfully refute a claim for a right of way to be recorded if he/she can show that either the way was used with his/her express permission only, or that he/she prevented access to the way, or that he/she has erected notices to counter any suggestion that there has been any intention to dedicate the way as a public right of way.

**Important note**

9. The object of this form is simply to reach the truth of the matter, whatever it may be. Witnesses are therefore asked to answer **all** the questions as **fully** as possible, and not keep back any information, whether for or against the public claim; this is of particular importance if the information is to be of real value. Please fill in the questions in clear handwriting.

Please note that the evidence you submit on this form is not confidential as we are obliged under legislation to allow the person(s) affected by the claim access to study and copy documents which we have taken into account when preparing an Order modifying the Map.

Used to be 1m tarmac strip with about 1m of grass to the right, then a ditch then a hedge. There was 4m of grass to the left of the tarmac strip to another hedge. You could walk anywhere across this whole width from hedge to hedge, plenty of room for groups of people and dog walkers to pass each other from opposite directions. The grass was usually short, but overgrew to brambles until the new house was built. Now my severely disabled daughter cannot walk there. Jacqueline cannot use the path now with her mobility scooter.

### Please read these notes before starting

1. Please complete the form in person, if possible, and in clear print.
2. Please answer every question as fully as you can. You may feel that several questions ask for the same information, but there is a reason for their being asked in this manner.
3. Please draw the route of the claimed way on the attached plan as carefully as possible and initial each end.
4. The details contained in this form may be used in evidence at a public inquiry, and you may be required to support the information you are providing by appearing in person.
5. If you cannot attend because of ill-health, or for other reasons, please state this clearly on the form.
6. **Please note that the evidence you submit on this form is not confidential.** The owner of the land affected by the route you have used may wish to know who claims they have used the route. He/she may wish to put forward the case that use was with direct permission. It could be prejudicial if he/she did not have sufficient information to comment on the nature of use. If this is the case, a copy of your completed form could be sent to him/her. In the first instance, a summary of the witness forms will be sent.
7. It is important that the way follows a linear route, and is not an area over which you have wandered at large.
8. A landowner can successfully refute a claim for a right of way to be recorded if he/she can show that either the way was used with his/her express permission only, or that he/she prevented access to the way, or that he/she has erected notices to counter any suggestion that there has been any intention to dedicate the way as a public right of way.

**Important note**

9. The object of this form is simply to reach the truth of the matter, whatever it may be. Witnesses are therefore asked to answer **all** the questions as **fully** as possible, and not keep back any information, whether for or against the public claim; this is of particular importance if the information is to be of real value. Please fill in the questions in clear handwriting.
