This is a copy of the title plan on 31 MAR 2018 at 18:38:08. This copy does not take account of any application made after that time even if still pending in HM Land Registry when this copy was issued.

This copy is not an 'Official Copy' of the title plan. An official copy of the title plan is admissible in evidence in a court to the same extent as the original. A person is entitled to be indemnified by the registrar if he or she suffers loss by reason of a mistake in an official copy. If you want to obtain an official copy, the HM Land Registry web site explains how to do this.

HM Land Registry endeavours to maintain high quality and scale accuracy of title plan images. The quality and accuracy of any print will depend on your printer, your computer and its print settings. This title plan shows the general position, not the exact line, of the boundaries. It may be subject to distortions in scale. Measurements scaled from this plan may not match measurements between the same points on the ground.

Notes on how to complete the attached evidence form

Please read these notes before starting

1. Please complete the form in person, if possible, and in clear print.
2. Please answer every question as fully as you can. You may feel that several questions ask for the same information, but there is a reason for their being asked in this manner.
3. Please draw the route of the claimed way on the attached plan as carefully as possible and initial each end.
4. The details contained in this form may be used in evidence at a public inquiry, and you may be required to support the information you are providing by appearing in person.
5. If you cannot attend because of ill-health, or for other reasons, please state this clearly on the form.
6. **Please note that the evidence you submit on this form is not confidential.** The owner of the land affected by the route you have used may wish to know who claims they have used the route. He/she may wish to put forward the case that use was with direct permission. It could be prejudicial if he/she did not have sufficient information to comment on the nature of use. If this is the case, a copy of your completed form could be sent to him/her. In the first instance, a summary of the witness forms will be sent.
7. It is important that the way follows a linear route, and is not an area over which you have wandered at large.
8. A landowner can successfully refute a claim for a right of way to be recorded if he/she can show that either the way was used with his/her express permission only, or that he/she prevented access to the way, or that he/she has erected notices to counter any suggestion that there has been any intention to dedicate the way as a public right of way.

Important note

9. The object of this form is simply to reach the truth of the matter, whatever it may be. Witnesses are therefore asked to answer **all** the questions as **fully** as possible, and not keep back any information, whether for or against the public claim; this is of particular importance if the information is to be of real value. Please fill in the questions in clear handwriting.

Please note that the evidence you submit on this form is not confidential as we are obliged under legislation to allow the person(s) affected by the claim access to study and copy documents which we have taken into account when preparing an Order modifying the Map.

Please complete the form in clear writing

Notes on how to complete the attached evidence form

Please read these notes before starting

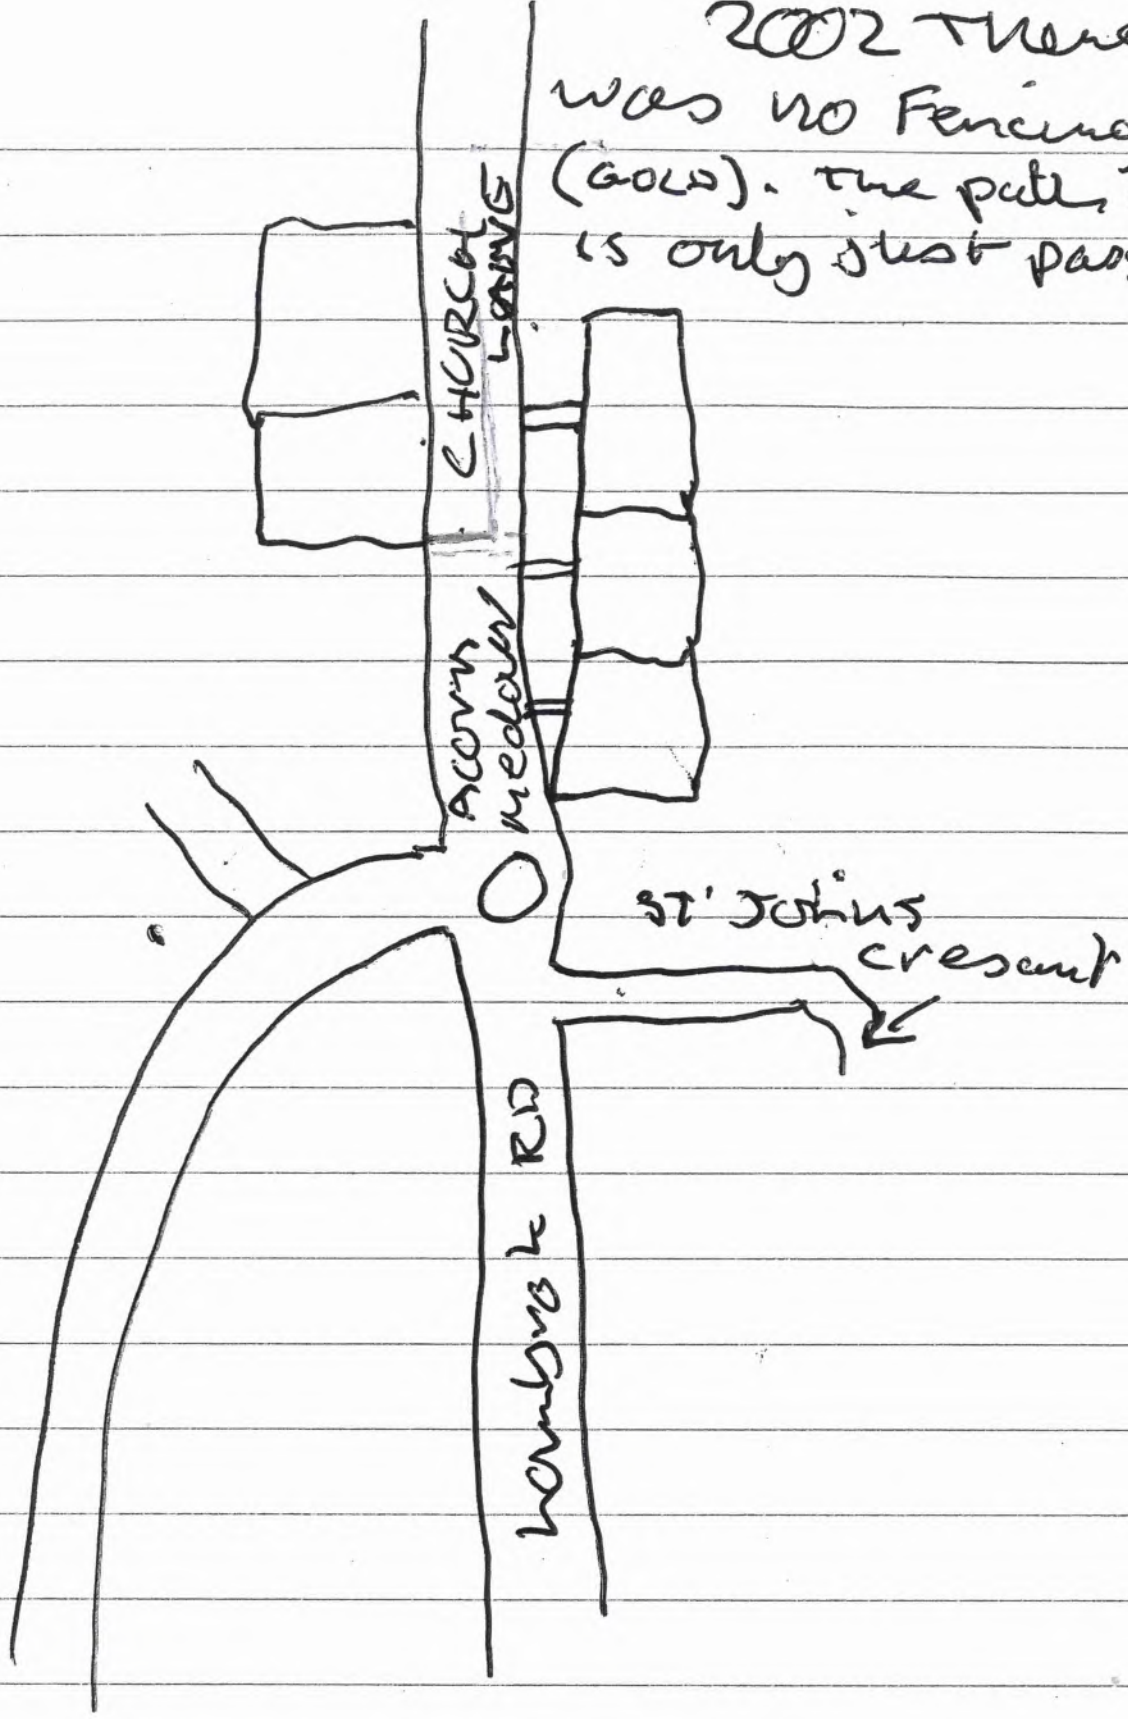

1. Please complete the form in person, if possible, and in clear print.
2. Please answer every question as fully as you can. You may feel that several questions ask for the same information, but there is a reason for their being asked in this manner.
3. Please draw the route of the claimed way on the attached plan as carefully as possible and initial each end.
4. The details contained in this form may be used in evidence at a public inquiry, and you may be required to support the information you are providing by appearing in person.
5. If you cannot attend because of ill-health, or for other reasons, please state this clearly on the form.
6. **Please note that the evidence you submit on this form is not confidential.** The owner of the land affected by the route you have used may wish to know who claims they have used the route. He/she may wish to put forward the case that use was with direct permission. It could be prejudicial if he/she did not have sufficient information to comment on the nature of use. If this is the case, a copy of your completed form could be sent to him/her. In the first instance, a summary of the witness forms will be sent.
7. It is important that the way follows a linear route, and is not an area over which you have wandered at large.
8. A landowner can successfully refute a claim for a right of way to be recorded if he/she can show that either the way was used with his/her express permission only, or that he/she prevented access to the way, or that he/she has erected notices to counter any suggestion that there has been any intention to dedicate the way as a public right of way.

Important note

9. The object of this form is simply to reach the truth of the matter, whatever it may be. Witnesses are therefore asked to answer **all** the questions as **fully** as possible, and not keep back any information, whether for or against the public claim; this is of particular importance if the information is to be of real value. Please fill in the questions in clear handwriting.

Please note that the evidence you submit on this form is not confidential as we are obliged under legislation to allow the person(s) affected by the claim access to study and copy documents which we have taken into account when preparing an Order modifying the Map.

Please complete the form in clear writing

This is a copy of the title plan on 31 MAR 2018 at 18:38:08. This copy does not take account of any application made after that time even if still pending in HM Land Registry when this copy was issued.

This copy is not an 'Official Copy' of the title plan. An official copy of the title plan is admissible in evidence in a court to the same extent as the original. A person is entitled to be indemnified by the registrar if he or she suffers loss by reason of a mistake in an official copy. If you want to obtain an official copy, the HM Land Registry web site explains how to do this.

HM Land Registry endeavours to maintain high quality and scale accuracy of title plan images. The quality and accuracy of any print will depend on your printer, your computer and its print settings. This title plan shows the general position, not the exact line, of the boundaries. It may be subject to distortions in scale. Measurements scaled from this plan may not match measurements between the same points on the ground.

Notes on how to complete the attached evidence form

Please read these notes before starting

1. Please complete the form in person, if possible, and in clear print.
2. Please answer every question as fully as you can. You may feel that several questions ask for the same information, but there is a reason for their being asked in this manner.
3. Please draw the route of the claimed way on the attached plan as carefully as possible and initial each end.
4. The details contained in this form may be used in evidence at a public inquiry, and you may be required to support the information you are providing by appearing in person.
5. If you cannot attend because of ill-health, or for other reasons, please state this clearly on the form.
6. **Please note that the evidence you submit on this form is not confidential.** The owner of the land affected by the route you have used may wish to know who claims they have used the route. He/she may wish to put forward the case that use was with direct permission. It could be prejudicial if he/she did not have sufficient information to comment on the nature of use. If this is the case, a copy of your completed form could be sent to him/her. In the first instance, a summary of the witness forms will be sent.
7. It is important that the way follows a linear route, and is not an area over which you have wandered at large.
8. A landowner can successfully refute a claim for a right of way to be recorded if he/she can show that either the way was used with his/her express permission only, or that he/she prevented access to the way, or that he/she has erected notices to counter any suggestion that there has been any intention to dedicate the way as a public right of way.

Important note

9. The object of this form is simply to reach the truth of the matter, whatever it may be. Witnesses are therefore asked to answer **all** the questions as **fully** as possible, and not keep back any information, whether for or against the public claim; this is of particular importance if the information is to be of real value. Please fill in the questions in clear handwriting.

Please note that the evidence you submit on this form is not confidential as we are obliged under legislation to allow the person(s) affected by the claim access to study and copy documents which we have taken into account when preparing an Order modifying the Map.

Notes on how to complete the attached evidence form

Please read these notes before starting

1. Please complete the form in person, if possible, and in clear print.
2. Please answer every question as fully as you can. You may feel that several questions ask for the same information, but there is a reason for their being asked in this manner.
3. Please draw the route of the claimed way on the attached plan as carefully as possible and initial each end.
4. The details contained in this form may be used in evidence at a public inquiry, and you may be required to support the information you are providing by appearing in person.
5. If you cannot attend because of ill-health, or for other reasons, please state this clearly on the form.
6. **Please note that the evidence you submit on this form is not confidential.** The owner of the land affected by the route you have used may wish to know who claims they have used the route. He/she may wish to put forward the case that use was with direct permission. It could be prejudicial if he/she did not have sufficient information to comment on the nature of use. If this is the case, a copy of your completed form could be sent to him/her. In the first instance, a summary of the witness forms will be sent.
7. It is important that the way follows a linear route, and is not an area over which you have wandered at large.
8. A landowner can successfully refute a claim for a right of way to be recorded if he/she can show that either the way was used with his/her express permission only, or that he/she prevented access to the way, or that he/she has erected notices to counter any suggestion that there has been any intention to dedicate the way as a public right of way.

Important note

9. The object of this form is simply to reach the truth of the matter, whatever it may be. Witnesses are therefore asked to answer **all** the questions as **fully** as possible, and not keep back any information, whether for or against the public claim; this is of particular importance if the information is to be of real value. Please fill in the questions in clear handwriting.

Please note that the evidence you submit on this form is not confidential as we are obliged under legislation to allow the person(s) affected by the claim access to study and copy documents which we have taken into account when preparing an Order modifying the Map.

Please complete the form in clear writing
