---

  
Hi.

I have been using this crossing for over 10 years, bar the period when the developer illegally blocked it off.  
This is another attempt to close the crossing on flimsy evidence. Im not aware of any accidents at this crossing.  
Further, I have at times had to go to the hospital in Bath, on crutches following an operation. adding another 1km is rather arrogant of the writer, perhaps they should try it with crutches and pain.

Not happy,

Andy Colbear
