Good afternoons

Re - PURTON104 - Made Order, made on 11 September 2025

We live locally and regularly walk the footpaths to Ringsbury camp. The footpath created by Restrop farm is so much better than the existing 104 which has the added inconvenience for everyone, ( property owners and walkers alike ), of passing through their private garden and passing close to the house. So much better to be diverted on the new path which takes one past a recently created orchard.

I do hope that the football created remains the main footpath

Many thanks  
Lyanne Glover
